• All students can achieve academic proficiency and strive for excellence.

• All students possess unique talents and gifts and should be encouraged to reach their maximum individual potential.

• Students should be able to collaborate and communicate effectively through reading, writing, speaking, computing, the arts, and technology.

• Students should acquire the knowledge, skills, and motivation necessary to achieve and maintain optimum health and lifelong fitness.

• Students should develop a sense of self-discipline, self-respect, and self-reliance and demonstrate social, civic and environmental responsibility.

• Students should acquire skills to adapt to an evolving and technologically advancing society.

• Students should understand, respect, and appreciate the racial, ethnic, and cultural diversity of our society and the democratic principles upon which this nation was built.

• A safe and orderly environment, free of prejudice, drugs, violence, bullying, hazing and harassment of any kind is essential to promote student learning.

• Ongoing opportunities for the professional growth and development of staff are essential for improving teaching and learning.

• Parents, guardians and caregivers, in partnership with schools, are an integral part of their child’s learning.

• Community involvement should be actively solicited, encouraged and developed.

Building Security/Visitors
The security system requires that all visitors enter the building through the front door. Visitors must press a buzzer and be identified before the door lock is released. Upon entry all visitors must report to the front office to sign in. Visitors must also sign out when they leave.

Guidance
In order to best serve our students, each student will have the same guidance counselor throughout middle school. All students are encouraged to use the services of the guidance department. Personal conferences are scheduled with each student yearly to discuss such things as study habits, educational progress, course selections, and personal and social concerns. In addition, counselors can also help students resolve conflicts with other students. Other services provided by counselors include testing and evaluation, dissemination of occupational and vocational information, orientation programs, and conferences with parents/guardians and referral agencies.

Media Center
Our school has a very fine media center staffed with a certified media specialist. The media specialist will issue a pamphlet of regulations concerning the use of the center. The center is open on a rotating basis before school and after school. Students are encouraged to use the media center at this time.

No School - Delay
School is canceled only in severe weather conditions. Occasionally the opening is delayed for one or two hours to allow conditions to improve. Students and parents/guardians will be notified through our automated message system. In addition, local radio and television stations carry cancellations.
Emergency Dismissals
On occasion, due to weather conditions or other circumstances, school is dismissed early. Parents/guardians are encouraged to make prior arrangements for the care of their children in the event that an emergency dismissal from school is necessary. Parents/Guardians will be notified through our automated message system.

School Insurance
The school offers accident insurance protection at a nominal cost to parents/guardians as a public service to its students. The insurance supplements other plans and provides protection for accidents occurring:
1. Going to or returning home from school
2. During school
3. During any school-sponsored activity and traveling to or from such activity

School Nurse and Health Office Policies
The school nurse is on duty each day. Students must report to the health room with a pass from their teacher if they have an accident in school or become ill. Accidents on school premises are treated according to standard first-aid practices. Care beyond first-aid is the responsibility of the parents/guardians. The nurse will notify parents/guardians if further treatment is needed.

All students will be evaluated by the nurse who will determine if they should be sent home. Ill students may only be dismissed from school by the nurse. At the beginning of each year, parents/guardians are asked to fill out an emergency card listing both home and work telephone numbers and the name and phone number of an authorized person who can act in their behalf in case their child has to be sent home from school when they are unavailable. Students are not permitted to leave the building during school hours unless escorted by a parent/guardian or person authorized by the parent/ guardian. A parent/guardian may give permission for their child to be transported by taxi. However, transportation costs are the responsibility of the parent/guardian.

Parents/guardians and students are encouraged to see the nurse not only about specific health matters, but in connection with the child’s total physical health development. It is the responsibility of parents/guardians to share medical information they feel is important to the health and safety of their child with the transportation department and all before- and after-school programs/clubs, including sport teams.

A doctor’s certificate is required for any student returning to school (or returning to PE class, extracurricular activities, etc.) under the following conditions: a prolonged or acute illness, an operation, an accident, or any restrictions on activity (e.g., sling, cast, crutches). Medical certification may also be required after an absence of five or more consecutive days.

The Commonwealth of Massachusetts requires that all students entering grade seven must have a recent complete physical examination and up-to-date immunizations. In the fall of grade six, two health forms are mailed home to parents/guardians. This allows parents/guardians nearly a year to schedule a doctor’s appointment so that all requirements will be fulfilled prior to entering grade seven. For prompt, safe delivery, parents/guardians should mail completed physicals to the school nurse.
Every year students are weighed and measured in their physical education classes. In addition, they are given a vision and hearing screening using methods approved by the Massachusetts Department of Public Health.

Postural screening is a mandated program. It commences sometime in the spring in grades 5 – 9. It is not a diagnostic service but a program to identify young people who may have early signs of spinal problems and should have further medical evaluation. Parents/Guardians are notified of any unusual findings. Any parent/guardian refusing to allow their child to be screened in school must provide the school nurse with written documentation that the child has been screened by their physician. The documentation should include the date of the screening, the findings, and the signature of the physician.

**Body Mass Index (BMI) Screening**

*Height and Weight Measurement of Children and Adolescents:*

Massachusetts regulations 105 CMR 200.500, (2009) for the Physical Examination of Children requires that Braintree Public Schools conduct a height, weight and BMI screening of each student in grades 1, 4, 7, and 10 (or, in the case of ungraded classrooms, by a student’s 7th, 10th, 13th and 16th birthday). BMI results will be calculated using a student’s age, gender, height, and weight. Results will be recorded in each student’s individual health record.

- Prior notice of the screening and the benefits of the screening will be provided to the parent(s)/guardian(s). Measurement of height and weight will be done by trained Physical Education teachers. Every effort will be made to protect the privacy of the student during the screening process.
- Parent(s)/guardian(s) may request to receive the screening results through a confidential mailing or other confidential communication method by submitting a written request to the school nurse.
- School staff will not disclose the height, weight or BMI calculations of an individual student, either verbally or in writing to anyone other than the parent or individual student without written permission from the parent/guardian.
- Parent(s)/guardian(s) may waive their child’s BMI screening by submitting written notification directly to the school nurse, not the physical education staff.

**Medications taken in school**

When a student must take a medication during school, a written order from the student’s doctor and written permission from the parent/guardian is required. These forms are available from the nurse. A parent/guardian or adult designee must deliver the medication to the nurse where it will be counted. The parent/guardian and nurse must then sign that the medication was received.

All medications must be in pharmacy or manufacturer labeled containers. The pharmacist will supply a second bottle for the school upon request. The nurse is only allowed to keep a 30-day supply of medication at a time.

State regulations prohibit students from having any medication in their possession in school, on school property, or at any school sponsored event. Students are not allowed to keep any medication on their person, in their lockers, backpacks, pocketbooks, etc. This applies to all prescription and over-the-counter medications with the following two exceptions. Students prescribed an inhaler to treat asthma or an Epi-Pen to treat allergic reaction may carry them on
their person only if (1.) they are properly labeled, (2.) the parent/guardian has notified the
health office in writing and (3.) the parent/guardian has provided the required physician
documentation. It is strongly recommended that a second set of medication be left in the
health office in case the student forgets his/her inhaler or Epi-Pen.

Any student who has been prescribed an Epi-Pen to treat a life threatening allergy must provide
the medication and a completed Epinephrine Emergency Action Plan, signed by the student’s
physician, to the school nurse on or before the first day of school. Without the appropriate
paperwork and Epi-Pen, your child may be excluded from school until the requirements are
met, in order to ensure and provide a safe and healthy environment for the children. (All
medical forms may be downloaded from the middle school’s website or obtained from the
health office.)

Regulations Pertaining to Student Records

Section 34F of Chapter 71 of the General Laws gives parents or guardians, with certain
restrictions, the right upon request to inspect any and all records in a public school that pertain
to the individual student.

1.01 Rules Application of Rights These regulations are promulgated to insure parents' and
students' rights of confidentiality, inspection, amendment and destruction of student records
and to assist local school systems in adhering to the law. These regulations should be liberally
construed for these purposes.

1.1 These rights shall be the rights of the student upon reaching 14 years of age or upon
entering the 9th grade, whichever comes first.

1.2 If a student under the age of 14 and has not yet entered the 9th grade, these rights
shall devolve to his or her parent.

School Food Service Information and Policies

The cafeteria provides a nourishing meal at a very reasonable cost. Students may bring lunches
from home and purchase juice drinks, milk, chips, ice cream, and dessert separately. Correct
change is appreciated but not necessary. The Braintree School Food Service Department
provides Meal Prepayment Plans for students for all breakfast, lunch and ala carte items.
Students will use their School identification number in accessing their lunch accounts. We
strongly urge parents/guardians to take advantage of this service. Students will be told when
their balance is getting low. Students are not allowed to charge any ala carte or snack items
which would result in a negative lunch account balance.

Parents and students will receive forms for free and reduced lunch and prepayment
information from the Food Service Department prior to the start of school in August or
September. Forms are also available in the School Office and online at
www.braintreeschools.org under the “School Lunch Program” link. For further information,
contact the Food Service Director, 781-794-8473.

Cafeteria Rules

Students are expected to use good manners. In addition, there are three important rules that
students should adhere to:

1. Students may not leave the cafeteria without permission.

2. Lunches must be eaten in the cafeteria. Students are not allowed to leave the cafeteria
with any food or drink items of any kind.

3. Students may not throw food, paper, or anything else – even across the table.
So that lunch is a pleasant time for all, students should adhere to the following procedure:

1. Pass in a quiet and orderly manner through the corridors on the way to and from lunch. Remember that other classes are in session.
2. Form a line; do not cut in or encourage anyone else to do so.
3. Sit at the table of your choice, but once seated remain at that table.
4. Talk in a quiet, pleasant manner.
5. Clean up what you spill; ask for help if you need it.
6. Return dishes, silverware, and trays to their proper place; dispose of all paper, plastic, etc. in the waste containers.
7. At the end of lunch, quiet down and remain seated until a supervising staff member dismisses you.
8. Leave your table and eating area clean.

*Cafeteria Privileges May Be Revoked For Improper Behavior.

### Academic Information

#### Cheating

The school promotes an environment where honesty is valued and where students are constantly encouraged to put forth their best effort. Cheating is considered to be any attempt to gain credit for knowledge or work not genuinely a student’s own.

In certain situations, such as homework, group work, and projects, classroom teachers have the responsibility for defining appropriate and inappropriate sharing of information. However, cheating on any academic exercise will result in a loss of credit for that exercise, and parents/guardians will be so notified by the teacher.

Students should be aware that plagiarism is considered a form of cheating. Plagiarism is the intentional presentation of another’s words, research, or ideas as one’s own.

#### Middle School Homework Policy

*Approved (revised) by School Committee 5/9/2011*

**Introduction**

Homework in the Braintree Public Schools is an essential part of the school program. Assignments will vary in accordance to the needs of the class and will relate to classroom instruction. Homework assignments are intended to reinforce and extend learning initiated in the classroom and serve as a tool for teachers to assess student understanding of classroom instruction. Completion of routine homework can motivate students to develop good work habits, while increasing the opportunity for individual initiative and responsibility. Homework can also stimulate creativity, critical thinking and awareness that learning can take place outside of the classroom. The guidelines below indicate how students, parents, teachers, and administrators all have a responsibility for the success of homework.

#### Homework Policy Guidelines for Students

1. Always do your best work
2. Record directions for homework in an assignment notebook
3. Understand assignments clearly before leaving class
4. Bring home the proper materials to complete the assignments
5. Hand in completed assignments on time
6. Budget time properly for long-term assignments
7. Complete any work missed due to absence from class
8. Homework will count for 10-15% of the student’s grade. A separate grade will also be included for homework.
9. Talk to your parents and teacher if you are having difficulty with homework
10. Homework will not be assigned during school vacation except for the completion of previously assigned long-term projects.

**Homework Policy Guidelines for Parents**

1. Be familiar with the philosophy and guidelines of the homework policy
2. Check your child’s assignment notebook
3. Provide a time and place to do homework assignments with limited interruptions
4. Actively supervise homework completion, assisting, but not doing the work
5. Oversee completion of long-term assignments to assist in understanding time management
6. Contact the teacher with questions or concerns, especially if your child exceeds the allotted time frame.
7. Homework will count for 10-15% of the student’s grade. A separate grade will also be included for homework.
8. Homework will not be assigned during school vacation except for the completion of previously assigned long-term projects.

**Homework Policy Guidelines for Teachers**

1. Assign homework on a regular basis in keeping with the homework policy
2. Assignments may be on a daily basis or of a long-term type, such as a report
3. Students are to understand clearly all homework assignments
4. Require that each student have an assignment book
5. Homework may take the form of class, group, or individual assignments
6. Group projects should not be assigned as homework, unless students can work on their individual parts independently
7. Teachers should coordinate assignments, tests, and projects with other teachers, as appropriate, to avoid overburdening students
8. Assignments should be discussed, checked and when appropriate, corrected and returned to students
9. Specific policies/practices of teachers are to be submitted to the principal and clearly communicated to students and parents
10. Teachers have the responsibility to communicate with parents of students who are falling behind in completing homework assignments
11. Homework will not be assigned during school vacation, except for the completion of previously assigned long-term projects.
12. Homework will count for 10-15% of the student’s grade. A separate grade will also be included for homework.

**Homework Policy Guidelines for Administrators**

1. Include this homework policy in all teacher, parent, and student handbooks
2. Require teachers to communicate homework policy to students and parents
3. Make certain that teachers are implementing the homework policy consistently and uniformly
4. Assist teachers, when necessary, in implementing this homework policy
5. Observe use of homework during classroom visits
6. Review homework samples and assignments periodically
7. Give suggestions to teachers, when necessary, on how assignments could be improved
8. Develop homework incentive programs/practices with teachers and parents to assist and enhance homework completion

**Timeframe of Homework Assignments**
While it is understood that the time it takes to complete homework assignments may vary with each child, the times below are the general guidelines for each grade level. If your child is having difficulty on a consistent basis completing assignments within the time frames established, please contact your child’s teacher for assistance. The amount of work brought home may be impacted by any opportunities to complete assignments in school. Teachers will be aware of grade specific or school-wide evening commitments for students and adjust homework accordingly. Studying for quizzes/tests and work on long-term projects will be figured into the time guidelines.

*If a student is experiencing difficulty, parents/guardians have the option of signing off at the upper time limit for a course’s daily homework. Your signature verifies that the student has worked studiously and has produced quality work.

**Honor Roll - Grades 7 and 8 only**
A student will be placed on Honor Roll if he or she earns at least a grade of B- in all subjects. The Honor Roll will be posted on the bulletin board outside of the main office. The Honor Roll will not be published in the newspaper. At the end of the school year, students who made the Honor Roll for the four consecutive marking periods will be recognized.

**Human Sexuality Education**

*Approved by School Committee 6/23/97*

**Parent Notification Law re: Human Sexuality Education**
In accordance with Massachusetts General Laws, Chapter 71, Section 32A, an Act Relative to Human Sexuality Education, the Braintree School Committee provides this notification to parents/guardians regarding curriculum which primarily involves human sexuality education or human sexuality issues. This notification, provided through the student handbooks at the middle school and high school levels, and through the newsletter at the elementary level, allows parents/guardians to exempt their child/children from any and all portions of the said curriculum through written notification to the school principal. No child exempted shall be penalized in any fashion, and will be given alternate assignments that comply with the time and learning requirement. Program materials will be made reasonably accessible to parents, guardians and others to the extent practicable.

Parents/guardians wishing to inspect and review program materials may contact the Director of Health & Wellness Education at Braintree High School.
Make-Up Work
Students who are absent a day or two should get their assignments by calling a friend or by accessing online course resources (e.g. Aspen Portal, Google Classroom). For absences of THREE or more days, a parent/guardian may call the school office to arrange for books and assignments to be collected. Calls should be made early in the day, and the materials should be picked up in the front office or the guidance office by the end of the day.

Students returning after an absence are responsible for seeing each of their teachers to check on the status of their work. Students must return for make-up sessions whenever requested to do so by the teacher. Failure to make up missed work will result in a loss of credit for the assignment.

Physical Education Requirements
1. All students must take part in physical education classes unless the teacher or nurse
   a. receives a written note detailing the reason for being excused from class.
   b. If the excuse is for a short duration, a note sent by the parent/guardian is acceptable.
2. For an extended time out of class, the student must be excused by a physician for medical reasons. Permission from the physician is also required in order for a student to re-engage in physical education activities after being excused.
3. Required Clothing: Sneakers, socks, pants or shorts, T-shirt or sweatshirt.
4. Unexcused lack of participation and/or failure to change into appropriate clothing will result in a loss of credit for that day.

Concussions and/or Head Injuries
The Braintree Public Schools Athletic Department has established protocols for the prevention, training, management and return to activity decisions regarding students who incur head injuries while involved in extracurricular athletic activities including interscholastic sports. The protocol will be disseminated to all student athletes and band members and will be updated as appropriate.

Program of Studies
The middle schools run on a six-day cycle. Courses run for six days or for three out of the six days. Grade seven Reading, Writing, and Research and grade seven Health are semester courses.

**Progress Reports**

Progress reports are issued at midterm four times during the school year (see pg. 9 “Marking Term Dates”). Progress reports communicate the student’s current grade and homework grade in each class along with relevant comments on the student’s effort, behavior, participation, and other matters pertaining to classroom success. They must be signed and returned to the school 24 hours after their issue. Parent/guardian cooperation is requested and appreciated. Parents/guardians are encouraged to monitor their children’s progress using their access to Aspen Parent Portal.

If parents/guardians wish to contact a teacher or guidance counselor about their child’s progress, they may do so via a telephone call, note or email. Teachers are most willing to accommodate parents/guardians and encourage communication with the home.

**Promotion Requirements**

Students who fail English or math must take the course in summer school. Students with two or three failures in the academic subjects (English, math, science, social studies) will be recommended for retention unless two courses are made up in summer school. The passing grade for summer school courses is C-. Students who fail all four academic subjects will be automatically retained.

**Report Cards**

Report cards are issued four times during the school year. The purpose of these reports is to inform parents of student achievement. Grades are grouped according to the following assessments:

- A, A- Superior
- B+ High honors
- B, B- Honors
- C+, C-, C Work of acceptable quality
- D+, D-, D Work of poor quality but passing
- E, F Unsatisfactory work – Failing
- W Withdrawn
- ME, M Medically Excused
- INC, I Incomplete

Report cards must be signed and returned to the school 24 hours after their issue. Parent/guardian cooperation is requested and appreciated.
Rules We Live By

After School Sessions
The school day ends at 2:25 PM for students who have fulfilled all of their obligations. If asked to do so by a teacher, students are responsible for reporting after school for extra help, to make-up work, and to serve teacher detention for behavioral issues. Failure to report after school is a serious offense; those who fail to report will be referred to the office and will be subject to office detention or demerits and will still owe the original time after school with their teacher.

Attendance Responsibilities

Absence
Students who are absent from school are required to bring in a note signed by a parent or guardian giving the date of absence and the reason for the absence. The note should be given to the homeroom teacher on the day the student returns to school.

Students who fail to bring in absence notes are subject to penalties. It is the policy of the Braintree School Department that the attendance officer will check absences. Parents/guardians are urged to cooperate with the school by sending notes promptly.

It is the policy of our schools that no student will be allowed to take part in any school activity, social or otherwise, if he or she has not attended school on that day.

Perfect Attendance: Religious holidays do not count against a student’s perfect attendance.

Excessive Absence
Research shows that academic success is closely related to student attendance. When students are absent from school, they cannot benefit from the direct instruction, the classroom discussions or the collaborative activities that are offered during the school day. Thus, it is essential the students attend classes.

Consequences for Excessive Absences
Excessive absence is defined as missing 10% or more of the days that school has been in session. After all regular avenues of communication have been exhausted, the following consequences will apply:

Students will not be allowed to participate in academic experiences such as field trips and non-academic activities such as team days, after-school activities, grade 7 and 8 ski trips, and end of the year field trips. During these times the students will remain in a structured, supervised setting where they will complete their academic assignments.

If a student’s attendance does not improve, he/she may face disciplinary action. Repeated truancies will result in a parent/guardian meeting with the principal, a meeting with the school resource officer, suspension, and/or referral to outside social agencies or the Norfolk County Probation Department.

Tardiness
Students who enter the building after the 8:02 bell are tardy and must report to the office. Students will be penalized for excessive tardiness. Repeated tardiness will result in a parent/guardian meeting with the principal, a meeting with the school resource officer,
suspension, and/or referral to outside social agencies or the Norfolk County Probation Department.

Students are expected to report to each class on time. Failure to do so may result in a disciplinary consequence. Students who have an excuse for being late must arrive with a pass.

Homeroom
At the 7:53 bell students should go directly to their lockers and then to homeroom. Students who have not checked in with their homeroom teacher by 8:02 are considered tardy. If it is necessary to do an errand during this time, students should get permission in advance from their homeroom teacher.

Dismissal
1. When a student is to be dismissed during the school day, a note from home stating the time and explaining the reason should be brought to school by the student on the morning of the dismissal. The note should be brought to the office before homeroom.
2. In order for the student to be released, a parent/guardian or some authorized responsible adult must report to the front office to be recognized by the student and to sign the student out of the building.
3. In case of illness, the nurse or the office will release the student with the parent/guardian’s consent.
4. If the student returns to school later in the day, he/she must sign in at the office before going to class.

Truancy
Students are required to attend school unless they are ill. Students who are absent without permission are considered “truant” and will be subject to disciplinary action. Students who are truant receive a failing mark for any missed work and are not permitted to make up any of the work missed. Repeated truancies will result in a parent/guardian meeting with the principal, a meeting with the school resource officer, suspension, and/or referral to outside social agencies or the Norfolk County Probation Department.

Family Vacations
If parents/guardians decide to go on a vacation of five days or less when school is in session, the student will be responsible for making up all work and will be allowed to make up tests scheduled during this period. \textit{The time limit for completion of all work is twice the number of vacation days.}

If parents/guardians decide to take their child out of school for more than five days for what is clearly a vacation, this absence cannot be treated in the same manner as the case above or as one for illness, a family emergency, or a unique educational experience. The loss of critical learning time in the classroom caused by extended absence and the necessity to comply with the state regulation on school attendance become even more serious concerns under the circumstances. Accordingly, the student will have the same loss of privileges as other students who are absent for unauthorized reasons. That is, he/she will not to be allowed to take any tests or receive credit for any work which was scheduled during the absence. The administration will, however, request teachers to provide a description of the class work that will be missed during the absence in order that the student will have an opportunity to keep abreast of what will be covered in each of the subjects.

Parents/guardians in all of these circumstances should inform the principal of the school
involved well in advance of the intended absence, and students should inform their teachers at least two weeks in advance of the absence in order to give them adequate time to prepare a description of what will be covered in class during the absence.

**Backpacks**
For safety reasons, backpacks cannot be used in the corridors or left on the floor in classrooms. Therefore, backpacks must remain in students’ lockers. Students have many opportunities during the day to go to their lockers for books and supplies.

**Beverages**
Students are not permitted to bring open containers of beverages of any kind into the building. All drinks must be consumed in the dining hall at lunch.

**Dress Code**
Students are reminded that school is a learning environment and a place of business. Students are expected to exercise maturity and responsibility in all matters including their dress and personal grooming habits. Students must meet normal standards of cleanliness and modesty, and may not pose a health or safety threat to the school in a way that disrupts the academic process. Students should take pride in their appearance, dress appropriately, and dress for success.

If a student is wearing an item of clothing not permitted by the Handbook guidelines, parents/guardians will be contacted to bring a change of clothing to school for the student, or the school will provide clothing if needed. *The student will not be able to resume his/her regular schedule until his/her clothing is modified.*

**Specific dress code regulations:**
1. Students are not permitted to wear hats in the building.
2. Shirts, tops, and all dresses may not expose the midriff, navel, shoulders, back or show any cleavage. For example: tank tops, tube tops, and spaghetti straps are not permitted.
3. Accessories which could reasonably be considered detrimental to student health and safety are not permitted in school.
4. Shirts, other clothing, or jewelry which displays a message or illustration of a profane nature, sexual connotation, violent advertisement or suggestive statement relating to drugs, alcohol or any illegal substances are unacceptable and may not be worn at school.
5. Pants and shirts must be worn in such a way as not to reveal undergarments or expose skin normally covered by undergarments. Undergarments may not be worn as outer clothing.
6. The length of shorts, skirts, dresses, etc. must be no shorter than the length of the longest fingertip with the arms fully extended.

*Although a student with offensive clothing may have inadvertently been allowed to attend one or more classes, this does not mean that a student cannot be referred for a dress code violation later in the day.*

**Electronic Devices**
Students are not permitted to use or carry cell phones, Mp3 players, iPods, CD/radio headsets, pagers or any other type of electronic equipment during school hours, except with specific permission from a staff member. While we realize that cell phones have become an important way for parents to keep in touch with their children, these items can be a distraction in the classroom. Use of devices for photography or text messaging is prohibited. Devices should be
turned off and left in the students’ lockers during the school day. The school cannot assume responsibility for lost or stolen personal property.

If a student is found to be using an electronic device during the school day, the item will be confiscated and held in the office until the end of the day, or the student will be sent to the office. This infraction will be treated as a disruption in the classroom or a failure to follow school policy, and disciplinary action will be taken.

Eligibility Policy
In order to participate in interscholastic sports, the school play, and student council, students may not have a grade of F in any subject on the previous report card. A student becomes eligible or ineligible for interscholastic sports or an activity when report cards are issued and the report card can be checked by the coach or supervising faculty member. A student who is ineligible for interscholastic sports may not practice with the team.

Fire & Safety Drills
Fire drills are held frequently during the school year. To ensure everyone’s safety, students should follow this procedure:
1. Students file out of the building under the direction of their teachers. The proper exits to use are posted in each room.
2. In the event of a blocked exit, students should file quickly to the nearest exit.
3. Once outside, students should move to a point 100 feet from the building.
4. Students who are not in classrooms should use the nearest exit.
5. Students should walk, and no talking is allowed.
6. Students should not take classroom materials with them.

For lockdown/remain-in-place drills, an announcement will be made over the PA.
1. Students and staff who are not in a classroom should quickly report to the nearest designated safe room.
2. All doors and windows should be locked.
3. Fire alarms should be ignored unless instructed otherwise.

Gum
Students are not permitted to chew gum in school.

Hallways/Corridors
1. At all times students should walk in an orderly fashion on the right-hand side of the corridor. Any unsafe behavior will be referred to administration, including—but not limited to—running, jumping, pushing/shoving, tripping, and dumping books.
2. Students may not loiter in the corridors or bathrooms between classes.
3. Students in the corridors during class time must have a pass.

Lockers
Homeroom teachers will assign each student a locker and a lock on the first day of school. Only school issued padlocks may be used.

Students are expected to adhere to the following:
1. Lockers are to be kept locked at all times.
2. Lock combinations are not to be shared with others.
3. Lockers should not be defaced or damaged.
4. Locker doors should not be forced open or shut.
5. Any difficulties with locks or lockers should be reported to the office.
6. Locks that are lost must be replaced at the current replacement cost.
7. Lockers should be kept neat. Lockers are inspected periodically.

Lockers are the property of the Braintree Public Schools. Students should understand that they are not considered private property, and, as a result, a duly authorized administrator may inspect lockers at any time. In addition, lockers are subject to search when there is a reasonable suspicion that the search will reveal evidence of a violation of law or school rules, or the possession of obscene or other inappropriate material.

**School Assemblies**

Assemblies provide one of the few opportunities in school to learn formal audience behavior. Courtesy demands that students be respectful and appreciative.

1. Do not take books or coats unless otherwise instructed.
2. Proceed quietly and promptly.
3. Sit in the seats designated by school staff.
4. Quiet down immediately when asked to do so.
5. Be courteous at all times. There should be no talking, whispering, whistling, stamping of feet, or booing.
6. Applause should be generous and courteous.
7. Do not leave the assembly until dismissed.

**Skateboards. Rollerblades & Bicycles**

For safety reasons, students are not permitted to use skateboards, rollerblades, scooters, or bicycles as a means of transportation to or from school. In addition, the unauthorized use of skateboards and rollerblades on school property at any time is prohibited.

**Student Activities**

School activities provide opportunities for students to nurture their curiosity and creativity, to develop their talents and leadership qualities, and to serve their school and community. Students are encouraged to participate in after school activities; however, they may do so only after their classroom obligations for the day are completed, and only if they are in school on the day of the activity. In order to participate in any activity, a student must be a member in good standing of the school community. Participation is a privilege, and as such, inappropriate or irresponsible behavior in school or during activities could result in the privilege being rescinded.

Activities other than those that follow vary from school to school and from year to year depending on the interests of faculty and students.

**Student Council**

The student council meets regularly during the school year under the direction of a faculty member. Student Council members represent and serve their fellow students in the conduct of the various activities sponsored by the Council and the school. Standards of scholarship and citizenship must be maintained consistently if a student is to remain eligible for membership in the Council.

**School Dances**

Students attending dances must obey the rules of the individual school. In addition, the following guidelines must be adhered to:
1. No visitors or guests are permitted.
2. Students must remain inside the building.
3. Once students leave, they will not be permitted to return.
4. Students may leave early only if a parent/guardian comes in to dismiss them.

Field Trips
Students who go on in-state and out-of-state field trips are representatives of the school and of our community. Field trips may include, but are not limited to the following: music festivals, museums, plays, science activities, tours, cultural trips, or exchange programs. To participate, students must have written parental permission. Due dates for permission slips are determined by the staff member in charge.

All field trips are a privilege, and as such, inappropriate or irresponsible behavior could result in the privilege being rescinded. Students who are excluded from field trips are expected to attend school on the day of the trip.

Please note that other than for behavior reasons, all students are required to attend this school day activity.

Sports
Intramural sports which are offered in the fall, winter, and spring are open to all students and may include soccer, flag football, cross country, floor hockey, basketball, volleyball, softball, and track. There is a fee associated with participating in Intramural Sports.

Currently interscholastic sports are limited to boys and girls basketball and soccer. See the eligibility policy in this section.

Student Safety
Students arriving in the morning and those waiting for the late bus in the afternoon must remain on school property. Students may not leave the building during the school day unless they are properly dismissed. Students are not to remain after school unless they have teacher permission or are participating in an extracurricular activity.

When they are in the building, students must be under the direct supervision of a staff member. Students may not enter the building in the morning except to report directly to a teacher or to a designated location. During the day, students must report to class on time. They may not linger in the hallways or the bathrooms. Students may not leave a room without the permission of the teacher. Students who are ill must report directly to the nurse’s office.

Technology Use
The Braintree Public Schools’ Network & Technology Responsible Use Policy is distributed to students and parents/guardians at the beginning of the school year. In order for middle school students to use BPS-owned or personal computing devices in school, they must understand the guidelines, and they and their parent/guardian must sign a responsible use contract. The policy includes, but is not limited to, the following prohibitions.

Network Use
All Braintree Public School employees and students are prohibited from:
1. Using the Braintree Public Schools network access for any personal use
2. Using any profane, vulgar, threatening, libelous, or criminal language when using the network for school business
3. Accessing any prohibited sites on the Internet
4. Overriding or encouraging students to override any firewalls established on the Internet access network
5. Permitting another individual to use their password
6. Disseminating any passwords, codes, access telephone numbers, or account numbers
7. Committing any other action whatsoever which would in any way subject the employee and/or employer to a possible criminal or civil action.

The above list is not all-inclusive and the Braintree Public Schools reserve the right to notify a user of any other impermissible action regarding the use of the Internet.

Computer Use

The computers and computer labs in the Braintree Public Schools are tools to be used for educational purposes. No person or persons shall:
1. Tamper with or attempt to change any settings on any computer in the system without authorization
2. Access or attempt to access the network without authorization
3. Attempt to tamper with or alter any programs or the network on any computer in the system
4. Attempt to access another student’s or staff member’s files
   Remove or tamper with any hardware, such as monitors, keyboards, mice, CPUs, scanners, printers, etc.

A violation of any of the above will result in consequences through the school discipline system and/or the loss of rights to use the computers/computer labs.

Telephone

Students who wish to contact their parent/guardian, etc. may use their cell phones after school. If students are staying for an after-school activity, arrangements for a ride home should be made in advance. If necessary, students may use classroom or office telephones with permission of the teacher or office staff.

Textbooks

Students are responsible for all textbooks issued to them.
1. Teachers will keep a record of the number and condition of each book.
2. Student and teacher names must be written on the inside cover of each book.
3. Books must be covered within 48 hours after issuance.
4. All damaged or lost books must be paid for.

Valuables

Valuables should not be brought to school. However, if it should be necessary, students should not leave such valuables in their desks or lockers. Money must be kept on one’s person. We encourage students to bring only the money they need to purchase items during the school day.

It is the policy of the Braintree School Committee that the School Department will not accept any responsibility for any personal property. The intent of this policy is to stress that the student must be at all times responsible for the security of personal property that is brought to school. While we feel concern over the loss and theft of a student’s property, we are unable to be responsible for the security of such property. This does not imply that school personnel will
not make every effort to assist students in recovering their property, and to punish anyone who is responsible for vandalizing the property of others.

Visitors
Students are not permitted to have guests during the school day or at school-sponsored activities.

<th>Discipline Code</th>
</tr>
</thead>
</table>

**In Support of Discipline**

A school cannot accomplish its goals unless there exists an atmosphere of cooperation and respect among students and between students and staff. In addition, learning can only take place in an environment that promotes a sense of order, safety, and security. It is our responsibility to provide an atmosphere that promotes socially appropriate behavior. Our students are expected to be courteous and polite, and to respect the rights and privileges of all members of the school community.

The ultimate goal of good discipline is to turn unacceptable conduct into acceptable behavior. Therefore, it is our task to assign consequences that are fair, consistent, and appropriate for middle school students.

**Administration of the Discipline Code**

The following factors will be considered when determining a consequence for undesirable behavior:

1. Age and grade level of the student
2. Frequency of misconduct by the student
3. Level of seriousness of the particular misconduct
4. Attitude evidenced by the student
5. Any other relevant factor
6. The I.E.P. for every special needs student will indicate whether the student can be expected to meet the regular discipline code or if the student’s handicapping condition requires a modification. Any modification will be described in the I.E.P and students on 504 plans.

Possible administrative actions that may be taken upon notification of a discipline issue include, but are not limited to, the following:

1. Verbal admonition
2. Contact parent/guardian
3. Suspension from an individual class or team/grade activity
4. Referral to guidance
5. Referral to peer mediation
6. Conflict resolution
7. Hallway restriction
8. Loss of dining hall privileges
9. Loss of extra-curricular privileges
10. Loss of field trip privileges
11. Loss of leadership position
12. Teacher detention
13. Office detention
14. Student/teacher/administrator conference
15. Parent or guardian/teacher/administrator conference (with or without student)
16. Demerits
17. In-school suspension
18. Out-of-school suspension
19. Referral for counseling
20. Referral to assistant superintendent
21. Referral to outside agencies: DCF, police
22. Expulsion

**Detention**

Detention is a consequence that requires a student to stay after school. Students are expected to meet their after school obligations. Failure to do so will result in further disciplinary action.

Teacher detention may be assigned for infractions of classroom rules, school rules, or other unacceptable behavior. The length of each detention and the number of afternoons will be determined by the teacher. Failure to report to teacher detention will result in additional detention and/or a referral to the office.

Office detention is assigned by the principal or the assistant principal. It begins at 2:30 and ends at 3:10 pm. Office detention takes precedence over all other school related obligations except reporting to a teacher. Students who miss detention must produce a note with an acceptable excuse from a parent/guardian or teacher. Failure to secure an excuse for missing detention or failure to report for detention will result in additional detention, demerits, or suspension.

**Demerit System**

Assigning demerits (or points) is a way to keep track of serious infractions of school rules. The principal or assistant principal assigns demerits after witnessing or uncovering inappropriate conduct or after receiving a discipline referral slip from a staff member. Demerits are assigned on an individual basis, and very few infractions carry a prescribed number of demerits thus allowing for flexibility of circumstances. An office referral is sent home describing the behavior and listing the assigned number of demerits. The referral must be returned to school with a parent/guardian’s signature.

A running tally of demerits is kept. Should a student accumulate twenty-five demerits, a hearing by the principal or his designee will be held to determine whether suspension is in order.

Just as demerits may be assigned for misbehavior, so too can they be removed if the student shows an improvement in the type of behavior for which the demerits were assigned.
Suspension
Any act which is not in to the best interests of the school and its community may result in immediate suspension by the principal or assistant principal. Suspension is a very serious consequence for a violation of school rules.

Suspension Policy
All students must be afforded Due Process whenever deprived of their education from regular classroom instruction or from other school activities through suspension.

The following steps will be taken upon receiving a complaint or information of possible student misconduct:
● The administrator in charge will fully investigate the matter.
● The student will be told the evidence against him or her and be given an opportunity to fully explain his/her side of the story.
● A hearing with the student, his/her parents, and the administrator will be conducted.
● If there is evidence that the student has violated a specific standard of conduct, then the administrator in charge may suspend the student by assigning an Out-of-School Suspension.
● Decisions for all suspensions will be based on the best interest of the students’ growth and educational development in the opinion of the school administration.

Student Responsibilities
Students are expected to be truthful and to take responsibility for their choices and actions. Lying in the course of an investigation is a serious offense and could result in serious disciplinary consequences.

Students are expected to make up the work they miss during their suspension.

In-School Suspension
Students spend the day in the in-school suspension room. They are required to bring a lunch. During the day the student will be provided with school work by his/her teachers. The assigned work must be completed by the end of the day.

Out-of-School Suspension
Students spend the suspension time at home.

Suspendable Offenses
A student may be suspended for a specific offense, for multiple violations of the same school rule, for violent or repeated opposition to authority, or when the example of the student is injurious to, or subversive of discipline in the school. In addition, any repeated behavior already addressed with the student and parent/guardian may result in suspension.

It should be noted that it is impossible to foresee all infractions, and the school administration reserves the right to impose penalties for all acts contrary to proper behavior not expressly stated herein.

Students cannot participate in any school activity from the time they are suspended until they are reinstated.
Non-violent Behavior

1. Theft
2. Forgery
3. Leaving class or school property without permission/skipping class
4. Gambling: No cards are permitted in school.
5. Extortion: Obtaining money, goods, or favors by threats of personal harm
6. Vandalism: Writing on, defacing, or breaking/destroying property that is not your own.
7. Truancy (repeated occurrences)
8. Verbal or written disrespect or abuse of others with regards to gender, race, culture, religion or physical type, or any other form of discrimination.*
9. Improper, profane, vulgar, or obscene language - spoken or written – in assignments, notes, on books, notebooks, etc.*
10. Threatening language*
11. Vulgar or obscene behavior, including gestures
12. Defiance: Students are expected to comply with requests or directives from school personnel in a timely manner.
* Including electronic communications to staff members or students

Jeopardizing the Safety of Others

13. Threatening behavior or intimidation
   Nor will students instruct other students to threaten or harm another student or staff member
14. Throwing objects of any kind
15. Possession of matches, lighter, or anything flammable in school or on school property
16. Possession of a laser pointer
17. Inciting a fight: Encouraging/instructing another student or students to do harm or fight

19. Physical abuse or any other behavior which jeopardizes the safety of others, including, but not limited to, pushing, tripping, shoving, hitting, play-fighting or play-scuffling

Illegal Acts

Please see Policies and References for a full explanation.

20. Hazing
21. Harassment/Sexual harassment/Discrimination
22. Use or possession of fireworks or other explosive/incendiary devices+
23. Use or possession of drugs (including medications)+
24. Use or possession of alcohol+
25. Use or possession of a weapon (or anything that may be perceived as a weapon)+
26. Use or possession of any tobacco product
27. Assault of a staff member+
28. False alarm+
29. Bomb threat+
30. Crank call

“Possession” means having the item on your person, or having the item(s) in your locker, in your purse, in your backpack or book bag, or in your books or notebooks.
+ Offenses which are considered sufficiently severe that expulsion may be considered. Expulsion means the student will no longer be able to attend any school in the Braintree School District.

**Hazing**

Hazing is any conduct or method of initiation into any student organization/group, whether on public or private property, which willfully or recklessly endangers the physical or mental health of any student or other person. This includes any treatment or activity which is likely to adversely affect the physical health or safety of any such student or other person, or which subjects such student or other person to extreme mental stress.

**Harassment**

Whenever ANY person or persons, interfere by threats, intimidation or coercion, or attempt to interfere by threats, intimidation or coercion, with the exercise or enjoyment by any other person or persons of rights guaranteed under the law, it shall be considered HARASSMENT. Students should inform their parent(s) and school administrator immediately if they feel they have been the victim of such actions. The law strictly forbids the mental or physical harassment of secondary school youngsters. Such behavior will not be tolerated and will be dealt with promptly. No form of harassment will be tolerated.

**Sexual Harassment**

Sexual harassment is unwanted and unwelcomed sexual behavior which interferes with your right to get an education or to participate in school activities. Sexual harassment may result from words or conduct of a sexual nature that offends, stigmatizes, demeans, frightens, or threatens you because of your sex.

In school systems, sexual harassment may cross many lines. The situation may be an instance of staff member to staff member, staff member to student, student to staff member, or student to student.

By law, the victim defines sexual harassment. What one person may consider acceptable behavior may be viewed as sexual harassment by another person. Therefore, in order to protect the rights of both parties, it is important that the victim make it clear to the harasser that the behavior is bothering him or her.

Physical harassment is any unwelcome contact such as bumping, touching, hugging, kissing, or pinching. Visual harassment is unwelcome exposure to sexually explicit photos, drawings, notes, or graffiti, and staring. Verbal harassment consists of unwelcome spoken words or sounds directed toward another, such as lewd or suggestive remarks, off-color jokes, comments on a person’s appearance, or gender-specific name-calling.

The harassment does not have to be directed at the victim, so long as the victim is affected by the conduct or communication and feels that it creates a hostile working environment. For example, a student sits between two others who continually make suggestive remarks or noises. If the middle student is offended, then he or she is said to have been subjected to a hostile environment.

**Use or possession of fireworks or other explosive/incendiary devices**

Possession or use of fireworks or other flammable materials of any type at school, on the grounds, on the buses, or at any school function is sufficient grounds for suspension from school.
Use or possession of drugs or alcohol

The use, possession, or sale/distribution of alcoholic beverages or controlled substances is forbidden by school policy and state law. The regulations are in effect during the school day, at all extracurricular activities, and all school functions. For a full explanation of the policy and the consequences, see the Memorandum of Agreement in Policies and References.

Use or possession of a weapon

Possession or use of a knife, gun, or any other object or facsimile which may be considered or used as a weapon is prohibited on school property. School property is broadly defined to include the school building, on school grounds, at school sponsored events, at activities or events which may be conducted off school grounds, on school buses, and at or around school bus stops, during loading and unloading procedures or on the way to or from school.

Violations of this policy will be cause for suspension and, if warranted, reported to the Police Department and referred to the School Committee for expulsion.

Students found in possession of a firearm as defined by Massachusetts General Law, Chapter 269, Section 10, will be reported to the Braintree Police Department and referred to the School Committee.

Use or possession of tobacco products

The consequences for middle school students found using or possessing tobacco products, nicotine products, and/or paraphernalia (such as pipes, electronic cigarettes, etc.) are as follows:

First Offense: Three-day out-of-school suspension
  $50 fine in the form of a “ticket”, or participation in Smoking Cessation Program run by the school nurse
  Parent/guardian conference with administration

Second Offense: Three-day out-of-school suspension
  $100 fine
  Mandatory Smoking Cessation Program (If not opted for prior)
  Parent/guardian conference with administration

Third Offense: Five-day out of school suspension
  $100 fine
  Mandatory meeting with parent/guardian and administration
  Court referral (per G.L. C.40 Sec. 210)

Students found in the presence of the use of tobacco products, nicotine products, and/or paraphernalia may be subjected to search & seizure, and disciplined under the above policy.

Braintree Public Schools District Policies

Massachusetts General Laws Chapter 71, Sections 37H, 37H1/2 and 37H3/4

In order to maintain an environment conducive to teaching and learning we will declare unequivocally that weapons, illegal drugs, alcohol, and violent acts have no place in an academic setting.

The Massachusetts Education Reform Act of 1993 was signed into law on June 18, 1993. This law has a direct impact on some student discipline policies and procedures. The information
contained below details policy and procedural changes that are now in effect in all schools in Massachusetts. The Massachusetts Education Reform Act supersedes pertinent discipline policy and procedures that are outlined in the student handbook. These policies and procedures include:

Chapter 71, Section 37H:

A. Possession of Weapons / Drugs
B. Assault on School Personnel

It is important for students and parents to understand and be mindful of the information listed below:

Section 37H. The superintendent of every school district shall publish the district’s policies pertaining to the conduct of teachers and students. Said policies shall prohibit the use of any tobacco products within the school buildings, the school facilities or on the school grounds or on school buses by any individual, including school personnel. Said policies shall further restrict operators of school buses and personal motor vehicles, including students, faculty, staff and visitors, from idling such vehicles on school grounds, consistent with section 16B of chapter 90 and regulations adopted pursuant thereto and by the department. The policies shall also prohibit bullying as defined in section 37O and shall include the student-related sections of the bullying prevention and intervention plan required by said section 37O. Copies of these policies shall be provided to any person upon request and without cost by the principal of every school within the district.

Each school district’s policies pertaining to the conduct of students shall include the following: disciplinary proceedings, including procedures assuring due process; standards and procedures for suspension and expulsion of students; procedures pertaining to discipline of students with special needs; standards and procedures to assure school building security and safety of students and school personnel; and the disciplinary measures to be taken in cases involving the possession or use of illegal substances or weapons, the use of force, vandalism, or violation of a student’s civil rights. Codes of discipline, as well as procedures used to develop such codes shall be filed with the department of education for informational purposes only.

In each school building containing the grades nine to twelve, inclusive, the principal, in consultation with the school council, shall prepare and distribute to each student a student handbook setting forth the rules pertaining to the conduct of students. The student handbook shall include an age-appropriate summary of the student-related sections of the bullying prevention and intervention plan required by section 37O. The school council shall review the student handbook each spring to consider changes in disciplinary policy to take effect in September of the following school year, but may consider policy changes at any time. The annual review shall cover all areas of student conduct, including but not limited to those outlined in this section.

Notwithstanding any general or special law to the contrary, all student handbooks shall contain the following provisions:

a. Any student who is found on school premises or at school-sponsored or school-related events, including athletic games, in possession of a dangerous weapon, including, but not limited to, a gun or a knife; or a controlled substance as defined in chapter ninety-four C, including, but not limited to, marijuana, cocaine, and heroin, may be subject to expulsion from the school or school district by the principal.
b. Any student who assaults a principal, assistant principal, teacher, teacher's aide or other educational staff on school premises or at school-sponsored or school-related events, including athletic games, may be subject to expulsion from the school or school district by the principal.

c. Any student who is charged with a violation of either paragraph (a) or (b) shall be notified in writing of an opportunity for a hearing; provided, however, that the student may have representation, along with the opportunity to present evidence and witnesses at said hearing before the principal.

After said hearing, a principal may, in his discretion, decide to suspend rather than expel a student who has been determined by the principal to have violated either paragraph (a) or (b).

d. Any student who has been expelled from a school district pursuant to these provisions shall have the right to appeal to the superintendent. The expelled student shall have ten days from the date of the expulsion in which to notify the superintendent of his appeal. The student has the right to counsel at a hearing before the superintendent. The subject matter of the appeal shall not be limited solely to a factual determination of whether the student has violated any provisions of this section.

e. Any school district that suspends or expels a student under this section shall continue to provide educational services to the student during the period of suspension or expulsion, under section 21 of chapter 76. If the student moves to another district during the period of suspension or expulsion, the new district of residence shall either admit the student to its schools or provide educational services to the student in an education service plan, under section 21 of chapter 76.

f. Districts shall report to the department of elementary and secondary education the specific reasons for all suspensions and expulsions, regardless of duration or type, in a manner and form established by the commissioner. The department of elementary and secondary education shall use its existing data collection tools to obtain this information from districts and shall modify those tools, as necessary, to obtain the information. On an annual basis, the department of elementary and secondary education shall make district level de-identified data and analysis, including the total number of days each student is excluded during the school year, available to the public online in a machine readable format. This report shall include district level data disaggregated by student status and categories established by the commissioner.

g. Under the regulations promulgated by the department, for each school that suspends or expels a significant number of students for more than 10 cumulative days in a school year, the commissioner shall investigate and, as appropriate, shall recommend models that incorporate intermediary steps prior to the use of suspension or expulsion. The results of the analysis shall be publicly reported at the school district level.

Chapter 71, Section 37H ½ - Felony Complaints and Felony Convictions

Section 37H1/2. Notwithstanding the provisions of section eighty-four and sections sixteen and seventeen of chapter seventy-six:

1. Upon the issuance of a criminal complaint charging a student with a felony or upon the issuance of a felony delinquency complaint against a student, the principal or headmaster
of a school in which the student is enrolled may suspend such student for a period of time
determined appropriate by said principal or headmaster if said principal or headmaster
determines that the student's continued presence in school would have a substantial
detrimental effect on the general welfare of the school. The student shall receive written
notification of the charges and the reasons for such suspension prior to such suspension
taking effect. The student shall also receive written notification of his right to appeal and
the process for appealing such suspension; provided, however, that such suspension shall
remain in effect prior to any appeal hearing conducted by the superintendent.

The student shall have the right to appeal the suspension to the superintendent. The
student shall notify the superintendent in writing of his request for an appeal no later than
five calendar days following the effective date of the suspension. The superintendent shall
hold a hearing with the student and the student's parent or guardian within three calendar
days of the student's request for an appeal. At the hearing, the student shall have the right
to present oral and written testimony on his behalf, and shall have the right to counsel. The
superintendent shall have the authority to overturn or alter the decision of the principal or
headmaster, including recommending an alternate educational program for the student.
The superintendent shall render a decision on the appeal within five calendar days of the
hearing. Such decision shall be the final decision of the city, town or regional school district
with regard to the suspension.

2. Upon a student being convicted of a felony or upon an adjudication or admission in court of
guilt with respect to such a felony or felony delinquency, the principal or headmaster of a
school in which the student is enrolled may expel said student if such principal or
headmaster determines that the student's continued presence in school would have a
substantial detrimental effect on the general welfare of the school. The student shall
receive written notification of the charges and reasons for such expulsion prior to such
expulsion taking effect. The student shall also receive written notification of his right to
appeal and the process for appealing such expulsion; provided, however, that the expulsion
shall remain in effect prior to any appeal hearing conducted by the superintendent.

The student shall have the right to appeal the expulsion to the superintendent. The student
shall notify the superintendent, in writing, of his request for an appeal no later than five
calendar days following the effective date of the expulsion. The superintendent shall hold a
hearing with the student and the student's parent or guardian within three calendar days of
the expulsion. At the hearing, the student shall have the right to present oral and written
testimony on his behalf, and shall have the right to counsel. The superintendent shall have
the authority to overturn or alter the decision of the principal or headmaster, including
recommending an alternate educational program for the student. The superintendent shall
render a decision on the appeal within five calendar days of the hearing. Such decision shall
be the final decision of the city, town or regional school district with regard to the
expulsion.

Any school district that suspends or expels a student under this section shall continue to
provide educational services to the student during the period of suspension or expulsion,
under section 21 of chapter 76. If the student moves to another district during the period of
suspension or expulsion, the new district of residence shall either admit the student to its
schools or provide educational services to the student under an education service plan,
derunder section 21 of chapter 76.
Section 37: Section 37L of said chapter 71 General Laws is hereby amended by adding the following paragraphs:

In addition, any school department personnel shall report in writing to their immediate supervisor an incident involving a student’s possession or use of a dangerous weapon on school premises at any time.

Supervisors who receive such a weapon report shall file it with the superintendent of said school, who shall file copies of said weapon report with the local chief of police, the department of social services, the office of student services or its equivalent in any school district, and the local school committee. Said superintendent, police chief, and representative from the department of social services, together with a representative from the office of student services or its equivalent, shall arrange an assessment of the student involved in said weapon report. Said student shall be referred to a counseling program; provided, however, that said counseling shall be in accordance with acceptable standards as set forth by the Board of Education. Upon completion of a counseling session, a follow-up assessment shall be made of said student by those involved in the initial assessment.

A student transferring into a local system must provide the new school system with a complete school record of the entering student. Said record shall include, but not be limited to, any incident reports in which such student was charged with any suspended act.

Chapter 71, Section 37H3/4 – Requirements for Long and Short-TermSuspensions

Section 37H3/4.

a. This section shall govern the suspension and expulsion of students enrolled in a public school in the commonwealth who are not charged with a violation of subsections (a) or (b) of section 37H or with a felony under section 37H1/2.

b. Any principal, headmaster, superintendent or other person acting as a decision-maker at a student meeting or hearing, when deciding the consequences for the student, shall exercise discretion; consider ways to re-engage the student in the learning process; and avoid using expulsion as a consequence until other remedies and consequences have been employed.

c. For any suspension or expulsion under this section, the principal or headmaster of a school in which the student is enrolled, or a designee, shall provide, to the student and to the parent or guardian of the student, notice of the charges and the reason for the suspension or expulsion in English and in the primary language spoken in the home of the student. The student shall receive the written notification and shall have the opportunity to meet with the principal or headmaster, or a designee, to discuss the charges and reasons for the suspension or expulsion prior to the suspension or expulsion taking effect. The principal or headmaster, or a designee, shall ensure that the parent or guardian of the student is included in the meeting, provided that such meeting may take place without the parent or guardian only if the principal or headmaster, or a designee, can document reasonable efforts to include the parent or guardian in that meeting. The department shall promulgate rules and regulations that address a principal’s duties under this subsection and procedures for including parents in student exclusion meetings, hearings or interviews under this subsection.

d. If a decision is made to suspend or expel the student after the meeting, the principal or headmaster, or a designee, shall update the notification for the suspension or expulsion to reflect the meeting with the student. If a student has been suspended or expelled for more
than 10 school days for a single infraction or for more than 10 school days cumulatively for multiple infractions in any school year, the student and the parent or guardian of the student shall also receive, at the time of the suspension or expulsion decision, written notification of a right to appeal and the process for appealing the suspension or expulsion in English and in the primary language spoken in the home of the student; provided, however, that the suspension or expulsion shall remain in effect prior to any appeal hearing. The principal or headmaster or a designee shall notify the superintendent in writing, including, but not limited to, by electronic means, of any out-of-school suspension imposed on a student enrolled in kindergarten through grade 3 prior to such suspension taking effect. That notification shall describe the student's alleged misconduct and the reasons for suspending the student out-of-school. For the purposes of this section, the term "out-of-school suspension" shall mean a disciplinary action imposed by school officials to remove a student from participation in school activities for 1 day or more.

e. A student who has been suspended or expelled from school for more than 10 school days for a single infraction or for more than 10 school days cumulatively for multiple infractions in any school year shall have the right to appeal the suspension or expulsion to the superintendent. The student or a parent or guardian of the student shall notify the superintendent in writing of a request for an appeal not later than 5 calendar days following the effective date of the suspension or expulsion; provided, that a student and a parent or guardian of the student may request, and if so requested, shall be granted an extension of up to 7 calendar days. The superintendent or a designee shall hold a hearing with the student and the parent or guardian of the student within 3 school days of the student's request for an appeal; provided that a student or a parent or guardian of the student may request and, if so requested, shall be granted an extension of up to 7 calendar days; provided further, that the superintendent, or a designee, may proceed with a hearing without a parent or guardian of the student if the superintendent, or a designee, makes a good faith effort to include the parent or guardian. At the hearing, the student shall have the right to present oral and written testimony, cross-examine witnesses and shall have the right to counsel. The superintendent shall render a decision on the appeal in writing within 5 calendar days of the hearing. That decision shall be the final decision of the school district with regard to the suspension or expulsion.

f. No student shall be suspended or expelled from a school or school district for a time period that exceeds 90 school days, beginning the first day the student is removed from an assigned school building.

A student being suspended for any other reason, pursuant to G.L. Chapter 71, §37H¾, shall be entitled to due process as shown below:

1. Except for Emergency Removals, prior oral and written notice of the charge shall be provided to the student, and to the student’s parent. The student shall be given the opportunity for a meeting/hearing with the principal before the suspension takes effect.

2. If the primary language of the student’s home is not English, the notice(s) shall be translated into the primary language spoken in the home.

The principal will make reasonable efforts to include the parent(s) in the meeting/hearing.

3. If the principal notifies the student and student’s parents of intent to impose a long-term suspension (more than ten (10) days), the student shall have the following rights:
a. In advance of the hearing, the opportunity to review the student’s record and the documents upon which the principal may rely in making a determination to suspend the student or not;
b. the right to be represented by counsel or a lay person of the student’s choice, at the student’s/parent’s expense;
c. the right to produce witnesses on his or her behalf and to present the student’s explanation of the alleged incident, but the student may not be compelled to do so; and
d. the right to cross-examine witnesses presented by the school district;
e. the right to request that the hearing be recorded by the principal, and a copy of the audio recording provided to the student or parent upon request

4. A parent attending the meeting/hearing for any suspension may request that the proceeding is audiotaped. All parties in attendance will be notified that the proceedings are being recorded.

5. Following meeting/hearing, the principal will provide a written decision.

6. If the principal imposes a long-term suspension, the student and/or parent may appeal the decision to the Superintendent of Schools.

**Policies, References & Consequences For Behavior Involving Legal Issues**

**Attendance**

The laws of the Commonwealth clearly describe the responsibility of parents and school administrators regarding pupil attendance and what school authorities must do to enforce attendance. The following are two pertinent excerpts from *Chapter 76, Section 1 & 2 of the General Laws of Education Relating to School Committees*:

1. **Regulation of School Attendance – Section 1**
   
   "The superintendent, or teachers insofar as authorized by him or by the school committee, may excuse cases necessary absence for the other causes not exceeding seven sessions or fourteen half-day sessions in any period of six months..."

2. **Duties of Parents: Penalty – Section 2**
   
   "Every person in control of a child described in the preceding section shall cause him to attend school as therein required, and, if he fails to do so for seven day sessions or fourteen half-day sessions within any period of six months, he shall, on complaint by a supervisor of attendance, be punished by a fine of not more than twenty dollars..."

It is the policy of the school department that the Attendance Officer to check absences.

Approved By School Committee - November 18, 2013

I. Policy
A. The Braintree Public School District is committed to providing our students equal educational opportunities where all school community members (students, employees, and visitors) treat each other with respect in a safe learning environment free from any form of bullying, harassment, sexual harassment, discrimination and hate crimes. This policy is an integral part of the District’s comprehensive efforts to promote learning, eliminate all forms of violent, harmful, and disruptive behavior and enable students to achieve their personal and academic potential and become successful citizens in our increasingly diverse society.

The district prohibits bullying, harassment, sexual harassment, discrimination, hate crimes, or any other victimization of students in our schools or school-related activities based on any of the following actual or perceived traits or characteristics, including but not limited to: race, color, religion, ancestry, national origin, sex, socioeconomic, status, homelessness, academic status, gender identity or expression, physical appearance, or sensory, disability, or by association with a person who has or is perceived to have one or more of these characteristics.

B. It is a violation of this policy for any administrator, teacher or other employee, or any student to engage in or condone bullying, harassment, sexual harassment, discrimination or hate crimes or to fail to report or otherwise take reasonable corrective measures when they become aware of an incident of harassment.

C. It is the responsibility of every employee to recognize acts of bullying, harassment, sexual harassment, discrimination and hate crimes and take every action necessary to ensure that the applicable policies and procedures of this school district are implemented.

D. Any employee or student who believes that he or she has been subjected to bullying, harassment, sexual harassment, discrimination or a hate crime has the right to file a complaint and to receive prompt and appropriate handling of the complaint. Further, all reasonable efforts shall be made to maintain the confidentiality and protect the privacy of all parties but proper enforcement of this policy may require disclosure of any or all information received.

E. The Building Principal/Designee shall be responsible for assisting employees and students seeking guidance or support in addressing matters relating to bullying, harassment, sexual harassment, discrimination, and hate crimes. This policy is not designed or intended to limit the school’s authority to take disciplinary action or take remedial action when such harassment occurs out of school but carries over into school, or, is disruptive or substantially interferes with an employee’s work, personal life, a student’s school work, or participation in school related opportunities or activities.

Reports of cyberbullying by electronic or other means, occurring in or out of school will
be reviewed and, when affecting work or school, will result in discipline. Parents of students alleged to have engaged in cyber harassment will be required to attend a meeting at which the activity, words or images subject to the complaint will be reviewed.

F. When a reported incident involves the principal or the assistant principal the Superintendent or designee shall be responsible and if the Superintendent is involved, the School Committee, or its designee shall be responsible for assisting employees and students seeking guidance or support in addressing matters relating to bullying, harassment, sexual harassment, discrimination, and hate crimes.

G. Whenever the evaluation of the Individualized Education Program team indicates that the child has a disability that affects social skills development or that the child is vulnerable to bullying, harassment or teasing because of the child’s disability, the Individualized Education Program shall address the skills and proficiencies needed to avoid and respond to bullying, harassment or teasing.

H. Braintree Public Schools will provide an annual report to the Massachusetts Department of Elementary and Secondary Education. K. Target: is an individual whom bullying, cyberbullying, or retaliation has been perpetrated.

III. Guidelines/Procedures for Dealing with Bullying, Harassment, Sexual Harassment, Discrimination and Hate Crimes
In school systems, bullying, harassment, sexual harassment, discrimination or hate crimes may cross many lines. The situation may be an instance of staff member to staff member, staff member to student, student to staff member, or student to student. Guidelines for dealing with any of these charges are as follows:

A. By law, harassment is defined by the target’s perception in combination with objective standards or expectations. What one person may consider acceptable behavior may be viewed as harassment by another person. Therefore, in order to protect the rights of both parties, it is important that the target or an administrator to whom a complaint was made or reported make it clear to the harasser that the behavior is objectionable.

B. Staff members must always take every report of bullying, harassment, sexual harassment, discrimination or hate crimes seriously and take action immediately.

C. If an instance of student to student bullying, harassment, sexual harassment, discrimination or a hate crime is reported to a staff member other than an administrator, the staff member should inform the Assistant Principal/Housemaster or the Building Principal and complete the designated forms.

D. If a situation involving a charge of staff member to student bullying, harassment, sexual harassment, discrimination or hate crime is brought to the attention of any staff member, that staff member should notify the Building Principal or Assistant Superintendent immediately.

E. In a situation involving a charge of student to staff member bullying, harassment, sexual harassment, discrimination or hate crime, the staff member should notify the Building Principal or Assistant Superintendent.

F. In a situation involving a charge of staff member to staff member bullying, harassment, sexual harassment, discrimination, or hate crime, the staff member should notify the Building Principal or the Assistant Superintendent.

G. In all charges of bullying, harassment, sexual harassment, discrimination or hate crimes, the target should describe in writing the specifics of the complaint to ensure that the subsequent investigation is focused on the relevant facts. Oral and anonymous complaints will be reviewed but are inherently difficult to investigate and may not be procedurally fair; as a result no disciplinary action shall be taken on anonymous complaints unless independently verified by clear and convincing evidence. All other complaints will be reviewed based on a preponderance of evidence standard.

H. Once a charge of bullying, harassment, sexual harassment, discrimination, or hate crimes has been reported, including charges of physical harassment as well as threats to a person's safety or position in the school or work environment, the following course of action should be taken:

1. The Building Principal or designee will investigate the charge through discussions with the individuals involved and will use the designated forms for documenting the alleged incident. In situations involving a staff member, he/she should be informed of his/her rights to have a third party present at the time of the discussion. In situations involving students, the Principal or designee should interview the reporting staff member, target, witness(es)/bystander(s) and student alleged
aggressor. Parents/guardians will be informed of the situation and invited to participate in discussions. It is important that the situation be resolved as confidentially and as quickly as the circumstances permit.

2. When a reported bullying, harassment, sexual harassment, discrimination, and hate crimes incident involves the principal or the assistant principal as the alleged aggressor the Superintendent or designee will investigate the charge through discussions with the individuals involved and will use the designated forms for documenting the alleged incident. If the Superintendent is the alleged aggressor, the School Committee, or its designee shall be responsible for investigating the report, and other steps necessary to implement the Plan, including addressing the safety of the alleged target.

3. If the situation warrants, and the harasser and the target are willing to discuss the matter at resolution meeting in the presence of the Principal/designee or superintendent/designee, a supportive faculty member and/or parent should be included in the discussion. During this discussion, the offending behavior should be described by the target and administration, a request for a change in behavior should be made, and a promise should be made that the described behavior will stop. If circumstances do not permit a face to face meeting the administration will present the target’s position. Follow-up verification procedures will be explained. Failure to comply after a resolution meeting will result in appropriate discipline.

4. The matter shall be documented in a manner consistent with the severity of the behavior, the impact of the behavior on the target and the school, and the disciplinary consequences imposed by the administration.

I. If after formal discussion with the involved parties, the Building Principal or designee determines that further action must be taken, the following would occur:

1. In instances involving student to student or student to staff member bullying, harassment, sexual harassment, discrimination or a hate crime the student would be held to the discipline code of the school. Legal action may also be initiated at this point.

2. In instances involving staff member to student and staff member to staff member bullying, harassment, sexual harassment, discrimination, or hate crimes, findings would be reported to the Superintendent of Schools, or to the school committee or designee when the superintendent is the alleged aggressor for further action. Legal action may also be initiated at this point.

J. Retaliation or false accusations against a person who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying shall be prohibited. If it occurs, it could be considered grounds for dismissal of staff personnel and/or removal from the educational setting for a student. A referral to law enforcement may be made.

K. Problem Resolution: Any parent/guardian of the target wishing to file a claim/concern or seeking assistance outside of the district may do so with the Department of Elementary and Secondary Education Program Resolution System (PRS). That information can be found at: http://www.doe.mass.edu/pqa, emails can be sent to compliance@doe.mass.edu or individuals can call 781-338-3700. Hard copies of this information is also available at the Superintendent’s office.
L. **Confidentiality:** Reports of bullying, harassment, sexual harassment, discrimination, or hate crime should be kept completely confidential, involving as few people as possible, with the goal of protecting the target and stopping the behavior.

The District will respect the privacy of the complainant, the subject(s) of the complaint, and the witnesses to the extent possible consistent with its obligations under federal and state law and regulations and its Policy to investigate, report, and take appropriate disciplinary and corrective action, and consistent with applicable state and federal confidentiality laws and student record regulations.

For further information about these guidelines or help with sexual harassment, bullying, or hazing problems, or any other form of harassment, consult: the Assistant Superintendent of Schools at 380-0130, ext. 8479.

**Network & Technology Responsible Use Policy**

*Policy IJNDB, Adopted by the Braintree School Committee, 6/12/2017*

**A. Introduction**

This document formalizes the policy for responsible use of the Braintree Public Schools’ (BPS) computer network and computing devices owned by BPS or used on the BPS campus. All users, including students, teachers, staff, administrators, and organizations are covered by this policy and are expected to be familiar with its provisions.

**B. User Responsibilities**

The BPS computer network and all related technology systems are designed and maintained in compliance with state and federal law, including the Children’s Internet Protection Act and Protecting Children in the 21st Century Act Amendment. All use of the network to access the Internet is filtered via a firewall, and network activities harmful to minors or non-compliant with educational uses are prohibited (see Section 3). It is the responsibility of any person using BPS computer network resources to read, understand, and follow these guidelines. In addition, users are expected to exercise reasonable judgment in interpreting these guidelines and in making decisions about the appropriate use of BPS computer network resources. Any person with questions regarding the application or meaning of these guidelines should seek clarification from the BPS technology director or central office. Use of BPS computer network resources shall constitute acceptance of the terms of these guidelines. When a user is no longer a member of the BPS community, he or she shall no longer have user rights to network and technology resources.

1. **BPS Computer Network Administrator Responsibilities**

   The administrator is responsible for making certain that all users understand and abide
by the Acceptable and Unacceptable Uses as stated in this document (Section 3). If the BPS computer network administrator has reason to believe that any user is misusing the system, the administrator has the right to access the user’s account in order to review its use. It is also the responsibility of the administrator to report any misuse of the system to district administrators.

2. BPS Computer Network Educator Responsibilities
   It is the responsibility of educators who are using BPS computer network tools with students to teach students about safe and responsible use of the Internet and the network (see also BPS Internet Safety Policy). Educators are responsible for monitoring students’ use of these resources and must intervene if students are using them inappropriately. Educators should make sure that students understand and abide by the Acceptable and Unacceptable Uses as stated in this document (Section 3). It is also the responsibility of the teacher to report any misuse of the system to his/her building administrator.

3. BPS Computer Network Student Responsibilities
   It is the responsibility of students who are using BPS computer network tools to learn about safe and responsible use of the Internet. They are responsible for using these resources appropriately. They must abide by the Acceptable and Unacceptable Uses as stated in this document (Section 3). If a student is misusing the system, educators must follow appropriate disciplinary protocols, including but not limited to reporting the misuse to the BPS computer network administrator, who has the right to discontinue his/her use of the system.

C. Acceptable and Unacceptable Uses
   The resources available to BPS computer network users are to be used for educational purposes. Users should not use BPS computer network to store any files that are not educational. BPS will educate all students about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response (see also BPS Internet Safety Policy).

   It is unacceptable for users to use these resources for:
   ● furthering any political or religious purpose
   ● engaging in any commercial or fundraising purpose that is not relevant to or approved by the district
   ● sending threatening or harassing messages
   ● gaining unauthorized access to computer or telecommunications networks
   ● interfering with the operations of technology resources
   ● accessing or sharing sexually explicit, or obscene materials
   ● intercepting communications intended for other persons
   ● attempting to gain unauthorized access to the BPS computer network
   ● logging in through another person’s account or attempting to access another user’s password or files, except where necessary for a teacher or administrator to do so
   ● sending defamatory or libelous material concerning a person or group of people
   ● furthering any illegal act, including infringing on any intellectual property rights
   ● researching, storing, or sending information regarding weaponry, except in bona fide research as required by the district’s curriculum (for example, an assignment studying a war)
   ● downloading, uploading, or distributing any files, software, or other material that is not specifically related to an educational project
• downloading, uploading, or distributing any files, software, or other material in violation of federal copyright laws

As with any other form of communication, these systems may not be used to transmit or store messages or other data that are prohibited under existing BPS policies, such as those prohibiting sexual harassment, protecting civil rights, and maintaining a safe school environment. Users should take all reasonable precautions against receiving or downloading messages, images, or other data of this sort.

D. Privacy Protections beyond BPS
   In compliance with state and federal privacy laws for minors accessing the Internet using school resources, BPS maintains a list of sites and services, along with the personally identifiable data on students that might be included as part of the terms of use for that site or service. Parents of children 13 and under retain the right to opt their students’ out of participation in services that require use of personally identifiable data. BPS administration expects staff and students to adhere to the list of approved sites and services when selecting educational resources for use in the classroom (see also Section 8).

E. No Expectation of Privacy within BPS
   BPS computer network resources are the property of the Braintree Public Schools and are to be used in conformance with these guidelines. BPS administration retains the right to inspect any user’s virtual hard drive, school-owned computer, Internet history, or email (whether through a town server or through Google Apps for Education/G Suite) if a suspected violation of the network technology policy or any other district policy has occurred. In keeping with state and federal laws regarding public records, users should be aware that data and messages are regularly archived, even if they appear to have been deleted locally. In addition, an Internet firewall automatically checks all data moving between the local area network and the Internet and logs the sending and receiving destinations. Use of BPS Computer network technology resources constitutes consent for the BPS computer network staff to monitor and/or inspect any files that users create, any messages they post or receive, and any web sites they access should a disciplinary or safety situation warrant such access.

F. Passwords
   Each user shall be required to use and maintain passwords that conform to BPS computer network guidelines. Users must take precautions to maintain the secrecy of their password so that other users will not be able to utilize that password for malicious purposes. If a user suspects that someone has discovered his or her password(s), the user should change the password(s) or contact technology services via the Help Desk for assistance in changing the password(s) immediately. BPS computer network users are responsible for all activity under their accounts.

G. Violations
   Failure to observe these guidelines may subject users to termination of their BPS computer network accounts, including Google Apps for Education/G Suite accounts, email accounts, and accounts with other district-provided services. BPS administrators will be notified of any inappropriate activities by users, and users will be subject to recourse through other existing BPS policies as applicable. BPS administrators will also
advise law enforcement agencies of illegal activities conducted through the BPS computer network and will cooperate fully with local, state, and/or federal officials in any investigation related to illegal activities conducted through the BPS computer network.

● Students (who have received permission) may connect wirelessly to the BPS network for educational purposes. Personal electronic devices may not be used for entertainment, including but not limited to games, messaging, social media, streaming movies, music, or video viewing, while connected to the BPS network, unless instructed to do so.

● Students must follow additional guidelines which a classroom teacher or BPS staff member might impose. The use of the electronic device(s) may in no way disturb the learning environment.

● Students are strictly prohibited from using peer-to-peer file sharing software and messaging programs unless instructed by a teacher to do so.

● Any student who is suspected of violating the Network & Technology Responsible Use Policy or any other BPS policy must yield their personal electronic device(s) to any Braintree Public Schools staff member upon request. Authorized personnel may inspect the system to determine whether any policies have been violated.

I. Disclaimers

Examples of Official Social Media include but are not limited to, district, school, club, team, PTO, or class websites, Facebook, Twitter, Instagram, Google+, blogs, YouTube videos/channels, LinkedIn, Snapchat, NextDoor, and Flickr.

For the purposes of this policy, “Personal Social Media” is understood to be content created by individuals for non-work related activities (e.g., a staff member establishing a Facebook page or a Twitter account for his or her own personal use). District employees should not use personal social media sites to communicate with students.

For purposes of this policy, “Content” includes comment, information, articles, pictures, videos, or any other form of communicative content posted on official or personal social media sites.

II. User Responsibilities for Official BPS Websites and Social Media
Official BPS Social Media sites will be used solely for communicating information about the Schools, including projects, events, and services. Examples include announcements; newsletters; emergency notifications; Parent-Teacher Organization (PTO), sporting, fundraising, or club events and activities; or meetings. School employees and representatives with website access through organizations such as PTO or Special Education Parents Advisory Council (SEPAC) may not engage in private messaging over official social media accounts. Official Social Media cannot be used to post political information or viewpoints; religious information or viewpoints; commercial information; information pertaining to an employee’s or school representative’s personal activities, matters, or interests; information which consists of content which is sexual, pornographic, or adult in character; or information which advocates or promotes the use of drugs, alcohol, or tobacco.

It is the responsibility of educators who are using Official BPS Social Media tools with students to teach students about safe and responsible use of social media (see also BPS Network and Technology Responsible Use Policy and Internet Safety Policy). Educators are responsible for monitoring students’ use of these resources and must intervene if students are using them inappropriately. Educators should make sure that students understand and abide by the Acceptable and Unacceptable Uses as stated [below]. It is also the responsibility of the teacher to report any misuse of the Official BPS Social Media to his/her building administrator.

Each administrator of an Official Social Media site will confirm with the appropriate principal and/or director that they have read and understand this policy.

C. BPS Social Media Student Responsibilities

It is the responsibility of students who are using Official BPS Social Media tools to learn about safe and responsible use of these sites. They are responsible for using these resources appropriately. They must abide by the Acceptable and Unacceptable Uses as stated in Section 9, Part C of this policy. If a student misuses the resources, educators must follow appropriate disciplinary protocols, including but not limited to reporting the misuse to building administrators, who have the right to discontinue a student’s access
to the official social media.

III. Site and Account Requirements

A. Staff members will treat professional social media space and communication like a classroom or professional workplace. The same standards expected in district professional settings are expected on professional social media sites. If a particular type of behavior is inappropriate in the classroom or a professional workplace, then that behavior is also inappropriate on the professional social media site.

B. Whenever possible, when establishing professional social media sites, users will consider the intended audience for the site and consider the level of privacy assigned to the site. The site should be a private network limited to a particular class or particular grade within a school. It is recommended practice for professional social media sites to be private networks, unless there is a specific educational need for the site to be a public network.

C. Staff members may only create professional social media accounts (i.e., accounts used exclusively for educational purposes) on district approved websites and platforms.

D. Staff will obtain their supervisor’s approval using the “BPS Social Media Registration Form” prior to setting up a professional social media presence. The form can be downloaded from: []

E. All Official BPS Social Media channels must link to our Disclaimer page, located at [braintreema.gov/disclaimer.html].

F. All Official BPS Social Media sites should link back to the respective Page(s) on the BPS website where relevant information is available.

G. All social media sites are subject to Massachusetts public records and record retention laws, rules, regulations, and policies. Any content maintained in an online format (Social Media/Website) that is related to Town Business, including posted communication and communication submitted for posting, may be subject to public disclosure. The site administrators will maintain records in accordance with Massachusetts public records retention laws, rules, regulations and policies. Site administrators will use the following guidance in order to comply with state and federal laws:
   1. Except for inappropriate postings, staff shall not delete any message posted on a social media site, webpage, blog, homework page, etc. In cases of inappropriate postings, the posting is to be copied and sent to an administrator using your district email account. The posting is then to be deleted from the site.
   2. Staff shall save all direct messages and communications conveyed through district affiliated social media sites. All email sent or received by district email accounts is archived for a minimum of seven years.
   3. Staff shall comply with applicable copyright laws when posting information produced by another person or entity and shall cite all third-party sources of information posted or shared.

H. When a School employee or representative responds to a comment, in his/her capacity as a School employee or representative, the employee or representative should do so in the name of the School or organization, and the employee or representative shall not
share personal information about himself or herself, or other School employees or representatives except as required for official business.

I. When posting to Social Media sites, school employees and representatives must do so in a way that is not defamatory. Defamatory communications are those that cause harm to the reputation of another person or cause that person to be ridiculed, held in contempt, or lowered in the estimation of the community. Defamatory statements will not be tolerated. Defamatory statements fall within conduct that is outside the scope of your employment and therefore, the Town of Braintree will not defend you from the consequences of your personal actions, nor will the Town indemnify employees against defamation-like suits that are determined to be in violation of this policy.

J. BPS employees and representatives may not use Official Social Media to post material which is illegal, which is in violation of federal or state laws regarding discrimination, or which constitutes criminal conduct. BPS employees and representatives may not use Official Social Media to post material which constitutes an unauthorized disclosure of proprietary or confidential information of BPS, personnel or student records or non-public labor relations information.

K. Site administrators must ensure that they have the right to post any Content being used on Official BPS Social Media. This includes compliance with copyright laws, and federal privacy laws, particularly for images of students or students’ personally identifiable information.

L. Procurement and ethics laws largely prohibit municipal employees or agencies from endorsing products, businesses, or vendors. In addition, School resources, such as Official BPS Social Media entities should not be used for political purposes.

M. Any posted Content on Official BPS Social Media sites, including articles, pictures, photographs, likenesses, and images cannot under any circumstances identify children under the age of 18 by full name. Individuals who do not wish to be depicted in images must return the form which expressly prohibits the Braintree Public Schools from using such image and likeness online. If such a prohibition exists, the picture, photograph, likeness, or image must be blurred in such a manner that the person cannot be identified or recognized. If that is not possible, the material cannot be used at all. The following additional guidelines apply to posting photos or images of students:
1. Images of individual students should not be posted.
2. Images of groups of students (three or more) are permissible, as long as the parents/guardians have provided media release permission to the school.
3. Students depicted in images are not to be identified by name.

N. Content posted to Official BPS Social Media sites shall conform with accessibility requirements detailed in Level A and Level AA Success Criteria and Conformance Requirements in WCAG 2.0 (incorporated by reference, see 702.10.1). This standard is available for reference at: https://www.w3.org/.

O. Employees or representatives are prohibited from posting communications that could reasonably be construed as creating a hostile environment, defamatory comments, threats, intimidation, or harassment by any member of the public or BPS employees.
Postings must be in conformance with all BPS Policies, including but not limited to, those concerning harassment, bullying, ethics and all state and federal law.

P. BPS reserves the right to deny access to any Official BPS Social Media sites to any person who violates the district’s Website and Social Media Policy, at any time and without prior notice.

Q. Active communication and outreach may lead to increased inquiries from the media. If the site administrator for an Official BPS Social Media site is contacted directly by a reporter, he or she should refer media questions to the Principal’s or Superintendent’s office.

IV. Privacy Protections in Media beyond BPS
In compliance with state and federal privacy laws for minors accessing the Internet using school resources, BPS maintains a list of sites and services, along with the personally identifiable data on students that might be included as part of the terms of use for that site or service. Parents of children 13 and under retain the right to opt their students’ out of participation in services that require use of personally identifiable data. BPS administration expects staff and students to adhere to the list of approved sites and services when selecting educational resources for use in the classroom (see also Disclaimers in Section 7).

V. No Expectation of Privacy within BPS
Official BPS Social Media resources are the property of the Braintree Public Schools and are to be used in conformance with these guidelines. BPS administration retains the right to inspect any user’s Official Social Media account if a suspected violation of the Website and Social Media Policy or any other district policy has occurred. In keeping with state and federal laws regarding public records, users should be aware that data and messages are regularly archived, even if they appear to have been deleted locally. Use of Official BPS Social Media resources constitutes consent for school and district administrators to monitor and/or inspect any files that users create, any messages they post or receive, and any websites they access should a disciplinary or safety situation warrant such access.

VI. Violations
Failure to observe these guidelines may subject users to termination of access to BPS Social Media and websites. BPS administrators will be notified of any inappropriate activities by users, and users will be subject to recourse through other existing BPS policies as applicable. BPS administrators will also advise law enforcement agencies of illegal activities conducted through Official BPS Social Media sites or accounts and will cooperate fully with local, state, and/or federal officials in any investigation related to these activities.

VII. Disclaimers
The Braintree Public Schools make no warranties of any kind, either expressed or implied, for Official BPS Social Media websites and resources. BPS is not responsible for unauthorized financial obligations incurred through Official BPS Social Media access. BPS accepts no liability for users who willfully ignore or violate terms of use on an Internet site or service via a BPS Social Media account. All provisions of this agreement are subordinate to local, state and federal statutes.

VIII. Personal Social Media Guidelines for Staff
A. As a recommended practice, BPS employees are encouraged to use appropriate privacy settings to control access to their personal social media sites. However, be aware that there are limitations to privacy settings. Private communication published on the Internet can easily become public. Furthermore, social media sites can change their current default privacy settings and other functions. As a result, employees are responsible for understanding the rules of the social media site being utilized.

B. In order to maintain a professional and appropriate relationship with students, staff may not communicate with students who are currently enrolled in the District on personal social media sites. This provision is subject to the following exceptions: (a) communication with relatives and (b) if an emergency situation requires such communication, in which case the BPS employee should notify his/her supervisor of the contact as soon as possible.

C. Communication directly with students related to academic issues should occur in class or be directed through District-provided email accounts.

D. It is not recommended that staff members post or tag photos of other employees, volunteers, vendors or contractors on personal social media sites without prior permission of the photographed employee.

E. The posting or disclosure of personally identifiable student information or confidential information via personal social media sites, in violation of federal law, state law, or district policy is prohibited.

F. BPS employees should not use the BPS logo or make representations that their personal social media sites speak in an official BPS or school capacity. Use of the BPS logo that is automatically populated on personal social media sites, such as LinkedIn, is permitted.

G. The district has multiple policies regarding student and staff conduct which overlap with this regulation. It recognizes that the use of electronic communication technology in an educational setting presents new challenges to appropriate student and staff conduct. However, behavioral expectations will not be diminished in these settings and appropriate professional boundaries shall be maintained at all times and through all means of communications. As such, the District retains the right to moderate and restrict student and staff use on District-related pages. The District expects staff and students to maintain the same level of decorum in electronic communications, including the use of social media, as in face-to-face interactions. This regulation is intended to supplement existing regulations, not to supersede them.

IX. Personal Social Media Guidelines for Students

A. Students using personal social media should be aware of privacy laws and websites’ privacy policies. Most information posted digitally can never truly be withdrawn and made private again. Many popular social media sites require users to be 13 or older because they collect, and potentially sell or distribute, data in manners not compliant with federal law (Children’s Online Privacy Protection Act) for students under 13. Students should be aware that if a website asks for a birthdate, this is usually a clue that it tracks a significant amount of user data, and that this tracked data may follow them as a digital footprint for years to come.
B. Students using personal social media should be aware of formal and informal voices, and the audience which may access or receive the post, comments, photo or image. The manner in which students interact with peers on social media may reasonably differ from expectations for interaction with Official BPS Social Media accounts. Students are expected to maintain the same level of decorum in electronic communications, including the use of official BPS social media, as in face-to-face interactions with teachers, staff, and classmates.

C. Students who use personal social media to interact with Official BPS Social Media must adhere to all school handbook policies regarding behavior. Interaction with Official BPS Social Media is treated as a school setting. This regulation is intended to supplement existing regulations, not to supersede them.

1. Acceptable uses of students’ personal social media to interact with official BPS social media include commenting on posts, posting pictures with permission, “following” official accounts, re-sharing official posts in their original form, and posting content to which students have the rights under copyright law.

2. Unacceptable uses of students’ personal social media to interact with Official BPS Social Media include all negative behaviors noted in BPS school handbooks, including but not limited to posting communications that could reasonably be construed as creating a hostile environment, defamatory comments, threats, intimidation, or harassment of any member of the public or the BPS community. Students must not interact with Official BPS Social Media to post political information or viewpoints; religious information or viewpoints; commercial information; information pertaining to an employee’s or school representative’s personal activities, matters, or interests; information which consists of content which is sexual, pornographic, or adult in character; or information which advocates or promotes the use of drugs, alcohol, or tobacco.

This policy is in compliance with state and federal telecommunications rules and regulations, including the Children's Internet Protection Act, the Protecting Children in the 21st Century Act Amendment, the Children’s Online Privacy Protection Act, the Family Educational Rights and Privacy Act, and the Protection of Pupil Rights Amendment.

State of Massachusetts Nondiscrimination Policy

Chapter 76, Section 5 of the Massachusetts General Laws provides that “Every person shall have the right to attend the public schools of the town where she/he actually resides, subject to the following section. No person shall be excluded from or discriminated against in admission to a public school of any town, or in obtaining the advantages, privileges and courses of study of such public school on account of race, color, sex, religion, national origin, or sexual orientation.” Title VI of the Civil Rights Act of 1974 also prohibits discrimination on the basis of race and national origin. Title IX of the Education Amendments of 1972 also prohibits discrimination on the basis of sex. The Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973 prohibit discrimination on the basis of disability. It is the policy of the Braintree Public Schools to abide by all applicable laws prohibiting discrimination.
Any student who believes he/she may have been the victim of discrimination will be informed by the Principal of the school's grievance procedures and will, upon request, receive a copy of these procedures.

**Tobacco Products**

In conjunction with the Board of Health, the Braintree Public Schools has developed the following policy as it relates to the use or possession of tobacco products, nicotine products, or paraphernalia (such as pipes, electronic cigarettes, etc.) [hereinafter referred to as “tobacco products”].

The Braintree Public Schools prohibit the use and/or possession of tobacco products in school buildings, facilities, school buses, on school grounds, and at school sponsored functions. Administrators will notify the parent or legal guardian and sports and activity directors of each infraction, mandate the confiscation of tobacco products, and require tobacco cessation programs.

The faculty and staff of the middle schools are committed to providing the students with a smoke-free environment. This policy hopefully will serve as a deterrent to those students who presently smoke. Additionally, an educational component is available to all students who are interested in learning about the dangers of smoking or needing assistance in stopping the use of tobacco products; the educational component is mandatory for those students that accumulate two tobacco products infractions.

It is important to understand that being in the possession of tobacco products—such as cigarettes, cigars, chewing tobacco, or any other form of tobacco or nicotine product—is subject to confiscation and considered an infraction under the policy. Administrators will return the confiscated tobacco product to the violator’s parent or legal guardian upon request.

Students found in the presence of tobacco products may be subjected to search and seizure. If in possession of tobacco products, students will be disciplined by the conditions stated in the tobacco policy.

As a result of being in violation of the State Education Reform Law, State Fire Department Regulations, Braintree Board of Health Regulations, as well as town bylaws pertaining to Fire Prevention Regulations, students will be issued a citation by school administrators and must pay the imposed fine at the office of the Board of Health within 14 days, or they may contest the fine by requesting in writing a hearing in front of the Board of Health within 7 days after the citation has been served; if necessary, the Board will bring action to the court of jurisdiction.

Braintree school officials have been designated by the Braintree Board of Health to be their agents for this purpose and shall be responsible for the enforcement of this regulation.

The consequences for middle school students found using or possessing tobacco products are as follows:

- **First Offense**
  - Three day out-of-school suspension
  - $50 fine in the form of a “ticket” or participation in Smoking Cessation Program run by the school nurse
  - Parent/guardian conference with administration

- **Second Offense**
  - Three-day out-of-school suspension
$100 fine
Mandatory Smoking Cessation Program (If not opted for after first offense)
Parent/guardian conference with administration

- Third Offense
  Five-day out-of-school suspension
  $100 fine
  Mandatory meeting with parent/guardian and administration
  Court referral (Site G. L. C40 Sec. 210)

**Weapons**

Possession or use of a knife, gun, or any other object or facsimile which may be considered or used as a weapon is prohibited on school property. School property is broadly defined to include the school building, on school grounds, at school sponsored events, at activities or events which may be conducted off school grounds, on school buses, and at or around school bus stops, during loading and unloading procedures or on the way to or from school.

Violations of this policy will be cause for suspension and, if warranted, reported to the Police Department and referred to the School Committee for expulsion.

Students found in possession of a firearm as defined by M.G.L., Chapter 269, Section 10, will be reported to the Braintree Police Department and referred to the School Committee.

**Title 18 – United States Code "Gun Free School Zones Act of 1990"**

It shall be unlawful for any individual knowingly to possess ...or discharge or attempt to discharge...a firearm at a place the individual knows or has reasonable cause to believe, is a school zone...except on private property not part of the school grounds or licensed to do so by the State in which the school zone is located. School Zone means within 1,000 feet from the grounds of a public, parochial or private school... Violators shall be fined not more than $5,000, imprisoned for not more than 5 years, or both. The term of imprisonment shall not run concurrently with any other term of imprisonment imposed under any other provision of law.

**Massachusetts General Law - Chapter 269, S. 10 - Prohibition against Firearms in Schools**

Whoever, not being a law enforcement officer, and notwithstanding any license obtained by him under the provisions of chapter one hundred and forty, carries on his person a firearm as hereinafter defined, loaded or unloaded or other dangerous weapon in any building or on the grounds of any elementary or secondary school, college or university without the written authorization of the board or officer in charge of such elementary or secondary school, college or university shall be punished by a fine of not more than one thousand dollars or by imprisonment for not more than one year, or both. For the purpose of this paragraph, "firearm" shall mean any pistol, revolver, rifle, or smoothbore arm from which a shot bullet or pellet can be discharged by whatever means

Memorandum of Understanding Between the Braintree Public Schools and the Braintree Police Department

Approved by School Committee August 8, 2011

Statement of Purpose:

We agree that crimes committed by young people are a national and societal problem reaching into our community of Braintree. To maximize the effectiveness of our efforts to achieve a crime-free community, we recognize the coordination and cooperation of the community as a whole are essential. Therefore, the Chief of Police, with support of the Mayor and the Superintendent of Schools, with the support of the School Committee, pledge to follow the agreed upon procedures for communicating criminal activity.

We further agree to coordinate our efforts, when appropriate, with the Department of Elementary and Secondary Education.

An agreement such as this is necessary since administrators, teachers, and other staff members are increasingly relied upon to monitor student behavior and to report unusual behavior that may indicate involvement with criminal activity. In these instances, the rights and responsibilities of school personnel and students and the role of police officers and law enforcement must be clearly understood.

This memorandum of understanding is an internal document between the parties and does not confer any rights, privileges or obligations nor is it enforceable against the parties hereto in any court, administrative hearing, or other forum. Any written or oral communication between the parties of the memorandum of understanding will be protected by all laws relating to privacy and confidentiality. This memorandum of understanding is in addition to, and does not supplant, policies of the Braintree Public Schools with regard to disciplinary procedures and codes of students conduct which are now or may be formulated and published in any student handbook.

Reportable Acts:

This memorandum of understanding concerns the report of mandatory reportable acts, which include assaulitve behavior, the possession of weapons, a case where a student is believed to be under the influence of alcohol or drugs, or a case where a student is believed to be in a possession of or distributing any controlled substance. School personnel are not protected under any privilege statutes of the Commonwealth and, if called on to testify in court, they would be obligated to reveal any information relating to a crime, even if voluntarily confided to them by a student.

This memorandum of agreement also concerns the response of law enforcement agencies to criminal activity in a school setting.

Procedures and Responsibilities:

1.0 The School Superintendent designates the School Principal as the responsible school official in each school for handling all reportable acts. The Chief of Police designates the School Resource Officer or, in his or her absence, the Detective Bureau Commander, as the official responsible for handling all reportable acts. (The term “drugs,” where used in this document, includes alcohol and controlled substances.)
2.0 All individuals who are involved in this memorandum of understanding agree to the following:

2.1 All school staff members are under obligation to report any and all incidents of violence to the School Principal. The School Principal shall be responsible for reporting all serious incidents of violence to the School Resource Officer. A serious incident of violence shall include, but not be limited to, any actual or threatened assault involving at least one student against another student, teacher, administrator, or employee or member of the school community, which involves the infliction or threat of serious bodily assault or any actual or threatening physical assault, or bullying injury or psychological harm. The Braintree Police Department shall determine and pursue appropriate measures to hold alleged offenders accountable and to help maintain school safety as warranted.

2.2 The Braintree Public Schools, through its principals or their designees, shall continue to promptly notify the BPD liaison of any information regarding any “serious act of violence”. Serious acts of violence shall include, but not be limited to, (any sexual assault or any actual or threatened physical assault, or bullying) involving at least one student against another student, teacher, administrator or employee, occurring in a school facility or in connection with a school function, which results in bodily injury or psychological harm, or involves the possession or use of a weapon or is a civil rights incident.

2.3 The Braintree Public Schools, through its principals or their designees, shall continue to promptly notify the BPD liaison of any instance where a “weapon” is possessed by or taken from a student on school grounds or in connection with a school function. A weapon includes any item as defined in Massachusetts General Laws chapter 269, section 10, and any other object that BPD, in its discretion, feels warrants further attention by BPD.

2.4 The Braintree Public Schools, through its principals or their designees, shall continue to promptly notify the BPD liaison of any information regarding the possession, use or distribution of alcohol or drugs within a school facility or at any school function.

2.5 The BPD will likewise promptly report to the principal any incident of underage drinking, possession, use or distribution of alcohol, drugs, weapons, or acts of bullying or violence occurring within the Town of Braintree during school hours and non-school hours. The BPD shall assign an officer to serve as liaison to the Braintree Public Schools. The BPD shall continue to make the School Resource Officer available to the Braintree Public Schools during school hours. The School Resource Officer shall receive reports from the Braintree Public Schools principals or their designees regarding serious acts of violence, bullying, the possession or use of weapons, or the possession, use or distribution of alcohol or drugs occurring in a school facility or at any school functions.
